Marshal Foch Presents American With Picture of Himself an Paid Him by Delegation of French

Paris May 26 (A)-Captain Charle Lindbergh was paraded before the eyes of the people of Paris today to such cheers as no man has heard in this city since Woodrow Wilso made his triumphal entry into Pari in 1919.

It was the first opportunity tha the citizens of Paris have had to see the heroic American aviator since his arrival at the Le Bourget flying field Saturday night, for all his intervening hours have been devoted to receiving honors from persons in high places.

Under the trees that border the Champs Elysees-one of the world's most magnificent boulevards-the common people of France stood in great masses, waving flags and shouting "bravo" as the slender and unspoiled youth from America was driven past them in a state proces-

packed with humanity and so was the celebrated Rue De Rivoli looking out upon the green trees of the Tulleries gardens, beautiful under a brilliant Maytime Sun. It was a day such as poets and painters have celebrated for centuries, perfect springtime in Paris. Flags Are Displayed

The flowers were in fresh bloom and the trees were fresh follage, while the tri-color of France and the stars and stripes of the United States fluttered everywhere, Republican guards, mounted on horses, lined the route, while every few feet or so stood policemen holding back the frenzied hero worshippers. The Washington for Chance scene was perfect, but the procession was somewhat of a disappointment
